### Safety for our Adventure day-trips:

All vehicles used for transporting campers are equipped with a first aid kit and emergency accessories. All vehicles have seatbelts for each passenger, and we check vehicle safety conditions prior to transport. Counselors will carry health forms for all passengers and a cell phone for emergency communication. Campers get full safety orientation prior to our day-trip.

Passengers (campers) are instructed in the following safety procedures prior to transporting:

1. Passengers will remain seated at all times with hands and arms inside vehicle.
2. Seatbelts will be fastened – one person per seatbelt.
3. Noise level will be such as to not distract the driver. There will be no disruptive behavior.
4. Passengers will enter and leave the vehicle under the direction of a staff member and/or driver. If the vehicle makes an emergency stop, passengers will follow directions of staff member and/or driver and use buddy system if leaving the vehicle.

The Directors of Camp Bethel have selected our Adventure outfitters (those providing equipment, leadership and expertise) and off-site projects based upon their qualifications and their adherence to safety standards as outlined by the American Camp Association.
